

TRM 781 Treadmill Experience™ Series

The TRM® 781 combines essential reliability and ease-of-use with touchscreen technology at a value just right for you. This treadmill is designed to optimize performance and maintenance for you while providing a comfortable and effective workout for your exercisers. The simple, clean design holds up under heavy commercial use, ensuring your investment will last into the future.

The clean and proven design of the P82 touch screen console makes it easy for exercisers, whether new to Precor or familiar, to locate controls, inputs, and adjustments.

The user interface delivers a smooth response to swipes and selections as exercisers enjoy an uninterrupted workout.

At Precor, we recognize that a great workout is the sum of many parts. In your hands, the products, services, and technologies we offer can be combined in countless ways to complement the programs and atmosphere you're creating.

TRM 781 Treadmill Experience™ Series

Product Features

1. P82 Console

The P82 console not only offers a brilliant 15 in / 38.1 cm screen that's ergonomically positioned to deliver crystal-clear entertainment viewing for exercisers in motion, but when networked is also a direct-to-exerciser communication portal allowing you an opportunity to build your brand, share information about activities and services, and strengthen the sense of community within your facility.

2. Motor Drive System

The motor drive system improves performance, efficiency, and reliability through improved internal cooling, a wider operating range, and unique input current averaging to identify more precisely when a running belt requires replacement.

3. Integrated Footplant Technology™

Recognizes exercisers' natural foot speeds and matches every stride for an ultra-smooth feel that enhances their workout experience.

4. Ground Effects® Impact Control System

Our patented GFX system combines ideal cushioning, support, and stability for exercisers. Precor decks are designed to provide more absorption in the front where exercisers' feet hit the belt and added rigidity at the back for a firm push-off.

5. Active Status Light

To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.

Gloss Metallic Silver Frame

Black Pearl Frame

Refined colorways with dark Tungsten covers and two frame color options.
