

## DPL0308 Low Row DISCOVERY™ SERIES PLATE LOADED LINE

Like every piece of equipment in our Discovery™ Series Plate Loaded Line, the DPL0308 Low Row adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

The Discovery Series Plate Loaded Low Row is designed to replicate the motion of a bent-over dumbbell row. The independent movement of the Low Row engages the exerciser's lower back and core muscles to improve balance and functional strength, delivering a more effective workout.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

# DPL0308 Low Row DISCOVERY™ SERIES PLATE LOADED LINE

## Product Features

### 1. Independent Movement Arms

Designed to demand greater balance and core muscle engagement, the independent arm resistance, and diverging movement path provide a greater range of motion.

### 2. Ratcheting Seat Adjustment

The ratcheting, gas-assisted seat adjustment features an ergonomic, over-molded rubber adjustment handle, making it easy and comfortable for exercisers to get the right fit.

### 3. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.

### 4. Weight Storage Horns

The four weight horns are optimally positioned for easy load and unload and provide storage for over 600 lb / 272 kg of weight plates.
