

DPL0550 Shoulder Press

DISCOVERY™ SERIES PLATE LOADED LINE

Like every piece of equipment in our Discovery™ Series Plate Loaded Line DPL0550 Shoulder Press adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

The Discovery Series Plate Loaded Shoulder Press features independent movement arms and converging pushing angles to increase the range of motion of the exercise. Oversized handles spread the load over a larger area of the exerciser's hand, resulting in a more comfortable workout.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DPL0550 Shoulder Press

DISCOVERY™ SERIES PLATE LOADED LINE

Product Features

1. Independent Movement Arms

Designed to demand greater balance and core muscle engagement, the independent arm resistance, and converging pushing angles increase the range of motion of the exercise.

2. Ratcheting Seat Adjustment

The ratcheting, gas-assisted seat adjustment features an ergonomic, over-molded rubber adjustment handle, making it easy and comfortable for exercisers to get the right fit.

3. Pressing Handles

Oversized 1.5 in (3.8 cm) handles make pressing exercises more comfortable by distributing the load over a larger area of the exerciser's hand and reducing strain.

4. Weight Storage horns

The four weight horns are optimally positioned for easy loading and unloading of weights and provide storage for over 600 lb / 272 kg of weight plates.

5. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
