

DPL0624 Squat Machine DISCOVERY™ SERIES PLATE LOADED

Like every piece of equipment in our Discovery™ Series Plate Loaded Line, the DPL0624 Squat Machine adds value to your facility by combining essential performance and durability with thoughtful design.

The unique pivot system and intuitive exerciser positioning of the Discovery Series Plate Loaded Squat Machine most closely mimics the muscular demands and exerciser stabilization of a barbell squat and provides the control needed to master the squat movement.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase with confidence. With a full range of approachable and intuitive products that perform for exercisers of all ability levels and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DPL0624 Squat Machine

DISCOVERY™ SERIES PLATE LOADED

Product Features

1. Contoured Shoulder Pads

Shoulder pads are shaped and angled to comfortably fit the exerciser. The four-bar linkage design allows them to pivot with the user, enabling exercisers to maintain their position throughout the range of motion instead of chafing under load.

2. Unique Pivot System

The proprietary spherical bearing design of the pivot system allows for unique lateral and rotational movements that enhance core activation and stabilization. This provides a more natural free weight experience and teaches the exerciser how to perform a proper squat movement.

3. Open and Stable Foot Platform

The uniquely differentiated large, open foot platform is approachable and intuitive, supporting an exercise experience that most closely mimics a free weight squat.

4. Simple Adjustments

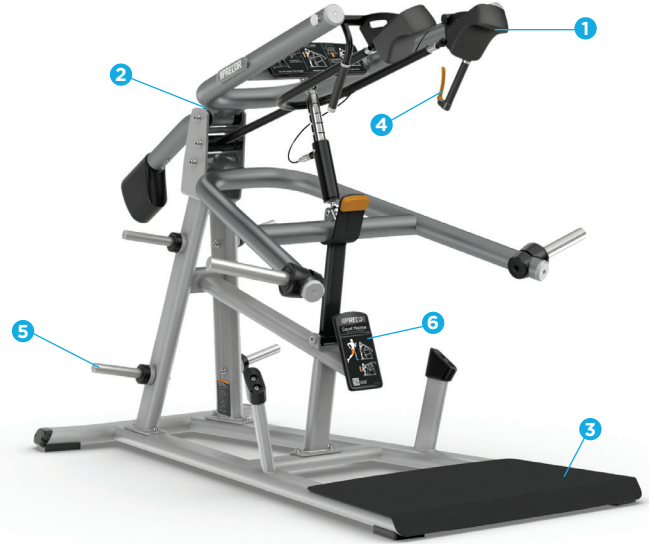

The five start-position adjustments are fingertip controlled and cover a variety of height ranges.

5. Weight Storage Horns

The four weight storage horns are optimally positioned for easy loading and unloading of weights.

6. Instructional Placard

Two easy-to-understand, text-free placards demonstrate correct form and set-up at a glance and a QR code links to a helpful 30-second instructional video.

SPECIFICATIONS

Dimensions (L x W x H): 91 x 67 x 61 in / 230 x 170 x 155 cm

Product Weight: 498 lb / 226 kg

Product Working Area (L x W): 115 x 91 in / 292 x 231 cm

Starting Weight: 40 lb / 18 kg

Max Weight Load Capacity: 540 lb / 245 kg

Weight Storage Horns: 4

Frame and Finish: Heavy-duty steel tubing is welded in all structural areas to withstand the most severe environments. Powder coated frame.
