

DSL0310 Seated Row

DISCOVERY™ SERIES SELECTORIZED LINE

Like every piece of equipment in our Discovery™ Series Selectorized Line, the DSL0310 Seated Row adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

The movement arm of the Discovery Series Selectorized Seated Row features a low, forward-set pivot for an optimal motion path and positive exerciser experience.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DISCOVERY™ SERIES SELECTORIZED LINE

Product Features

1. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.

2. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

3. Forward-Set Pivot

The low, forward-set pivot of the movement arm provides an optimal motion path.

4. Angled Handles

Angled, triple-grip handles create a wide range of exerciser start positions with no chest pad adjustments needed.
