

DSL0313 Back Extension

DISCOVERY™ SERIES SELECTORIZED LINE

Like every piece of equipment in our Discovery™ Series Selectorized Line, the DSL0313 Back Extension adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

The Discovery Series Selectorized Back Extension features a contoured back pad to support the back for proper spinal biomechanics during the workout. Only a single adjustment is needed for the exerciser to begin the workout, resulting in a smooth and intuitive exercise experience.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

Back Extension
DISCOVERY™ SERIES SELECTORIZED LINE

Product Features

1. Back Pad Support

The contoured back pad provides the proper support for back muscle activation during the workout.

2. Movement Arm Adjustment

Only a single adjustment to the movement arm is needed to begin exercising. The thoughtful design includes a contoured pad to support the back for proper spinal biomechanics during the exercise.

3. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

4. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
