

DSL0324 Diverging Low Row

DISCOVERY™ SERIES SELECTORIZED LINE

Like every piece of equipment in our Discovery™ Series Selectorized Line, the DSL0324 Diverging Low Row adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

The Discovery Series Selectorized Diverging Low Row with Advanced Movement Design™ combines biomechanically precise diverging movement arms with ergonomically shaped rotating handles to provide a natural and comfortable workout for your exercisers.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DSL0324 Diverging Low Row

DISCOVERY™ SERIES SELECTORIZED LINE

Product Features

1. Independent and Diverging Movement Arms

Designed to demand greater balance and core muscle engagement, the independent arm resistance, and diverging movement paths provide a greater range of motion throughout the exercise.

2. Ergonomic Handle Grips

Independent, exerciser-defined handle design allows for various positioning throughout the full range of motion. The slip-resistant handles are ergonomically shaped to optimize grip with less forearm fatigue.

3. Footplate and Low-Height Seat Pad

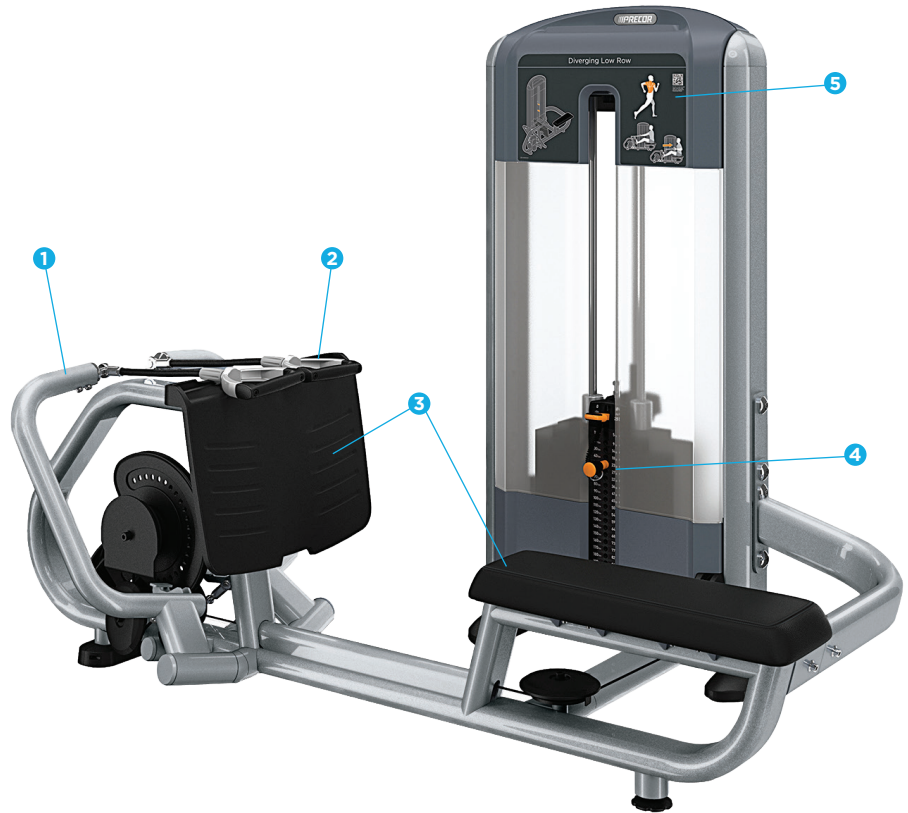

The oversized, non-slip footplate and large, low-height seat pad provide easy and intuitive exerciser positioning with no adjustments needed. The upright exerciser positioning doesn't include a chest pad, increasing core stabilization for the exerciser.

4. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

5. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.

SPECIFICATIONS

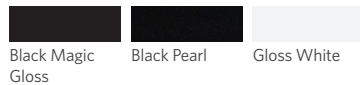

Dimensions (L x W x H):	77 x 48 x 59 in / 196 x 122 x 150 cm
