DSL0602 Leg Press

DISCOVERY™ SERIES SELECTORIZED LINE

Product Features

1. Angled Back Pad

The back pad is optimally angled at 35 degrees, encouraging proper exerciser positioning.

2. Step Ledge

An integrated step ledge at the base of the seat enables exercisers to easily step in and out of the Leg Press.

3. Fixed Footplate

The oversized, fixed footplate provides a stable foundation for exercisers of all sizes.

4. Ratcheting Seat Adjustment

The ratcheting, gas-assisted seat adjustment features a large, ergonomic, over-molded rubber adjustment handle, making it easy and comfortable for exercisers to get the right fit.

5. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

6. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
