

DSL0606 Prone Leg Curl

DISCOVERY™ SERIES SELECTORIZED LINE

Like every piece of equipment in our Discovery™ Series Selectorized Line, the DSL0606 Prone Leg Curl adds value to your facility by combining essential performance and durability with thoughtful design to deliver an exerciser experience that feels natural.

Easy entry onto the Discovery Series Selectorized Prone Leg Curl allows exercisers to align their knee joint with the pivot for proper exercise mechanics, creating a smooth, effective, and biomechanically correct workout experience.

Strength equipment is a long-term investment and with the Discovery Series from Precor, you can make your strength purchase decision with confidence. With a full range of products that are approachable and intuitive, perform for exercisers of all ability levels, and will withstand the test of time, the Discovery Series is the straightforward strength solution you've been looking for.

DSL0606 Prone Leg Curl

DISCOVERY™ SERIES SELECTORIZED LINE

Product Features

1. Ankle Roller Pad Adjustment

The ankle roller pad easily adjusts for varying leg lengths and provides smooth resistance during the exercise.

2. Angled Pad Design

The angled pad helps ensure proper exerciser positioning, minimizing stress on the lower back.

3. Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

4. Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
