

S70 Suspension Elliptical™ Trainer

The S70 Suspension Elliptical™ Trainer offers our exclusive PerfectStride™ technology to the commercial market for years of user comfort. Combining an ideal stride motion, ergonomically correct foot positioning, and optimal incline and stride length adjustments, PerfectStride allows users to change the emphasis on the muscles being targeted during their workout. The unique suspension design provides an exceptionally smooth feel, utmost comfort, and unmatched accessibility. The electromagnetic generator system allows you to place this Suspension Elliptical™ Trainer anywhere in your facility.
